

Copper InstinctsTM

"The Original Copper Furniture"

Recycled Copper • Reclaimed Wood • Hand Forged Iron

www.copperinstincts.com

Copper Instincts designs and builds the highest quality copper furniture on the planet. We Instinctively Combine Eco-Friendly Recycled Earth Materials to Create Unique Home Furnishings.

Established in 1996, Copper Instincts was the first to conceive of, design, and manufacture copper-covered furniture and table tops in Mexico. This is the “original”, highest quality, and largest selection of hammered copper furniture available in the industry. We help our clients to differentiate themselves in the marketplace and to increase profitability by providing unique, high quality, and hot-selling furniture; and by providing great service that our clients can depend on.

The **Best Value** in copper-covered furniture:

- Eco-Friendly.
- Largest selection.
- Total custom capabilities.
- Truly the highest quality.
- Only company combining wood, iron, and copper.
- Unique and innovative designs.
- Highest quality construction.
- Largest selection of designer quality finishes.
- Highly responsive service.
- On-time shipping.
- Free freight on orders of \$5,000 or more.
- Excellent packing.

- Reputation of being one of the best furniture companies in Mexico.

Compare Copper Instinct’s copper with that of its competitors:

- Rich colors are fired directly into the copper to allow the healing of stains and scratches.
- Hammering is optimized which is critical as to how the copper wears over time with use.
- Hammering shallow enough to also be used as a writing surface.
- Solder lines joining copper sheets are virtually undetectable.
- Flat lying copper does not rise or bubble up.
- Corner and edge treatments are rounded and without any sharp or pointed edges.
- Sealed with paste wax, the proper sealer for copper.
- Custom copper tops are available in virtually any size and shape.

What other company combines recycled copper, reclaimed wood, and forged iron as beautifully and professionally as Copper Instincts; and with such a huge selection of innovative designs?

If the copper does not have the Copper Instincts logo, then it is not the original high quality Mexican copper furniture and tabletop line.

Copyright violators should be aware that Copper Instincts does not tolerate copyright infringement. All products offered by Copper Instincts are specifically designed by Copper Instincts for Copper Instincts’ exclusive use and are protected by international copyright laws. We have and will continue to take legal measures against those that pilfer Copper Instincts designs and market them as their own. Retailers who sell product that clearly violates copyright laws will also be held liable and could face harsh penalties. ©2009 All rights reserved.

Copper InstinctsTM

Bedroom Furniture

Beds are ingeniously crafted by our blacksmiths, carpenters and copper masters to create added warmth to any bedroom.

- All beds include bolt-on side rails (and the bolts for attaching them to the headboard and footboard). Assembly is required.
- Beds are U.S. standard sizes (King, Queen, Double, and Twin).
- Customers must specify if they desire Mexican bed sizes.
- California King is also available, and is the same price as a normal or Eastern King.
- Headboards alone are priced as the complete bed price minus 40%; unless the headboard price is listed separately.

Dining Room Furniture

Copper Top Dining Tables create a warm and inviting atmosphere to any dining area.

- Dining table bases have no standard sizes – but rather are custom-made for any size table top desired and specified by the customer. Customers should specify the table top size and the base style; then we will size the base accordingly.
- Dining table bases are sized by considering the size of the table top, having sufficient leg room when sitting at the table, and the overall stability of the table.
- Bases are priced separately from table tops to allow all possible combinations.
- Most iron dining table bases are available in “normal” or “heavy” versions....some heavy versions are shown in the catalog while others are not.
- Most iron bases are available with custom modifications.

Copper InstinctsTM

Living Room Furniture & Occasional Tables

A truly unique and beautiful combination of hand hammered copper, hand-forged iron, and reclaimed wood occasional tables which mix and match with any décor.

- Each style of occasional table base includes coffee tables, end tables, and console tables.
- Coffee tables are made to accommodate either rectangular, square, round, or oval table tops.
- The standard occasional table bases are sized to accommodate the standard size copper table tops (THC's) and standard size wood tops (TWT's); however, custom size bases and tops are available upon request. Measurements shown are for the bases only.
- Table bases and table tops are sold separately; however, Items with "CU" in the item code include the price of the copper.

Copper InstinctsTM

Bathroom Vanities

Copper sinks are optional and are in addition to the base price. Oval copper sinks are integrated into the copper vanity tops such that the sink and top are all one piece. Above counter mount round vessel sinks may also be specified and are shipped separately. If the customer has their own sink we will build the vanity with a complete copper top to allow the hole to be cut to size upon installation by the customer. Backs are open to allow passage of plumbing.

The holes for the faucets are typically not drilled. This allows customers the option of wall-mount or counter-mount faucets; and also allows the customer to position the faucets exactly where they are desired.

- Custom sizes available.
- Copper sinks have an overflow drain which connects to a vertical 1 1/2" extension tube below.
- Drains, stoppers, pop-up levers, S & P traps, and faucets are not provided.
- Copper back-splashes are available upon request (use item code THC-7 to calculate price). Back-splashes are built separately to avoid breakage during shipping.
- Iron bases "PB", "EB", "TB" or even custom iron base designs provided by the customer may replace the curved wood feet (contact client service for quotes).
- CAB-8 CU & CAB-9 CU are too narrow to accommodate oval copper sinks, but rather are designed to utilize above counter mount round vessel sinks.

Copper InstinctsTM

Tops & Finishes

***Tops
& Finishes***

Copper Table Tops (item codes THC & THCR)

Normal Copper

Rich colors of red, brown, orange, yellow and black are fired directly into the copper. The colors are random and are not controllable - each piece is truly unique.

Brown Copper

(10% upcharge) A uniform dark golden brown color tone.

Patina Verde Copper

(10% upcharge) A green patina on the copper. The amount of patina on the copper is controllable; therefore, more or less patina may be specified.

- Rectangular, square, round, oval, and odd shaped copper tops are available in almost any size. Rectangular tops are available up to 25 feet long. Square and round tops are available up to 8 feet wide.
- Standard size copper tops are listed in the price list; however, custom sizes (THC-7) are available to go with custom sized table bases.
- Odd shapes (i.e. kidney shaped) require the customer to provide a template.
- Kitchen counter tops are priced the same way as custom table tops (THC-7).
- Corners are rounded and free of sharp edges.
- Custom edge thicknesses are available.

The copper is sealed with clear paste wax which is the correct and proper sealer for copper. Periodic waxing is required by the customer to keep the copper sealed and protected. Care tags are hung from each piece of furniture to instruct the

customer how to care for and maintain the copper. The copper can be sealed with lacquer clear coat sealer upon request (but it is not recommended).

The nature of the hammering is critical as to how the copper wears. The Copper Instincts copper is hand-hammered using the optimal depth and spacing for preserving the appearance of the copper over time with use, scratching, and abrasion, while also allowing one to easily write on a sheet of paper on the same copper surface. Beware of other manufacturers' copper that is not optimally hammered, or not hammered at all, as it will scratch and abrade across the entire surface leaving ugly scars.

If the copper gets scratched or stained simply leave it alone and the original colors will gradually return with exposure to air. Once the colors return then the copper should be waxed to re-seal it to help prevent future stains.

Wood

Reclaimed Wood Table Tops (item code TWT)

- Rectangular, square, round, and oval wood tops larger than 42" are discouraged due to the potential for cracking and warping.

WOOD Finishes: Old wood reclaimed from very old buildings.

Dark Wood Stain: the most commonly ordered; and is the default finish unless otherwise specified. Any required touch-ups are made easy using BriWax Dark Wood color tone commonly available at many hardware and furniture stores.

Antique Black
(10% upcharge)

Antique Red
(10% upcharge)

Antique Red with Turquoise
(10% upcharge)

Antique Verde Green
(10% upcharge)

Antique White
(10% upcharge)

Light Wood hand-rubbed
wax finish.

IRON Finishes: Suitable for use in corrosive beach environments.

Standard Finishes:

Oxido Pintura: Dark reddish-brown finish (most commonly ordered and is the default finish unless otherwise specified).

Negro Mate: Flat black finish.

Gris: Gun Metal Gray finish.

Rust: Natural rust (requires additional time).

Premium Finishes (10% upcharge):

Cobrizado: bright copper plating chemical finish.

Cobre Antiquo: antiqued combination of the cobrizado and rust finishes.

Cobrizado w/ Patina: cobre antiquo finish with green patina highlights.

Custom (10% upcharge):

Finishes can be matched if a sample or photo is provided by customer.

Copper Instincts™

“The Original Copper Furniture”

Set your business apart by offering your customers “the original” and the highest quality hammered copper furniture line available in the industry. Copper Instincts offers truly unique furniture which is all hand made using recycled materials. You will receive the most diverse selection of unique and innovative designs, the highest quality construction, the highest quality finishes suitable for use even in corrosive beach environments, and the ability to provide custom sizes and custom designs to your customers. You can rest easy knowing you have a company in Mexico that fulfills orders accurately, ships on time, packs very well, stands behind its products, and provides highly responsive and reliable service. You will not find another company that combines recycled hand-hammered copper, old reclaimed wood, and forged iron as beautifully and professionally as Copper Instincts does.

Is All Copper The Same? No, Mexican copper is very different in appearance due to the way

it is recycled, heated, and hammered compared to industrially refined copper available in the U.S., Pakistan, India, South America, and other countries. Even within Mexico not all copper is created equal – it varies significantly depending on the skills and methods employed by each individual coppersmith. Just like anything else; copper furniture is available in high, medium, or low qualities. Noticeable differences include the nature of the colors in the copper, the spacing and depth of hammering, the thickness of the copper, the edge and corner treatments, the invisibility or the visibility of ugly solder lines where copper sheets are joined together, how flat and even the copper lies and adheres to the underlying substrate (rather than bubbling up and being uneven in places), how the copper is sealed, and how the copper wears and ages over time with use. Over the years Copper Instincts has learned, mastered, and optimized each of these variables to manufacture the highest quality copper furniture available.

***If copper furniture does not have the Copper Instincts logo,
then it is not the original high quality Mexican copper furniture.***
